Helping you achieve your goals

With a Citibank® Savings Account you can easily build your savings with regular deposits or transfers from your other bank accounts. Don't feel you have enough to make a difference? Start with a little! You'll be surprised how quickly it builds. And without cheques or an ABM card, you're never tempted to withdraw money on a whim.

Here's how a Citibank Savings Account can help you save for a special purchase or build an emergency fund.

- **Automatic transfers:** You can easily set up automatic transfers from your other Citibank accounts or from your accounts at any Canadian financial institution. Then sit back and watch the money accumulate as deposits are made automatically - weekly, monthly or any frequency you choose. You can also transfer money any time you want by using Citibank Online or by calling the CitiPhone® Banking Centre 24 hours a day, 7 days a week.
- **Direct Deposit:** Have your pay or other payments deposited directly into your Citibank Savings Account. Of course, you can send Citibank Canada a cheque for deposit at any time too!

tip:

Earn interest by parking your money in a Citibank Savings Account

Don't accumulate funds in your chequing account when your money could be earning valuable interest in a savings account.

Earn higher interest and pay no fees

With a Citibank Savings Account there are no fees - which leaves more money in your pocket. And, tiered interest rates are an incentive to save because the higher your balance, the higher the interest rate you earn on your entire balance¹.

tip:

Saving for retirement? Choose a Citibank Registered Savings Account²

A Citibank Registered Savings Account has all the great advantages of a regular savings account. Plus, your money accumulates tax-free and your contribution may result in a tax refund³.
