Interest paid is dependent on the difference between the closest lower interest rate announced by Bank with respect of the period of actual time deposit duration from set up until the cancellation and 1 % cancellation fee and the initial amount of the time deposit.		

An on-line time deposit may be cancelled partially or in its entirety. For partial cancellation, the withdrawn amount must be more than CZK 10,000 and the remaining amount of deposit must be at least the minimum amount for opening a time deposit in the relevant currency. If the deposit is cancelled within 28 days of when it was set up, no interest is paid. If the deposit is cancelled more than 28 days after it was set up, the client receives interest in accordance with the following formula: $I = (P * IR * (no. of days from opening date to break date) / time deposit currency base year (360/365-366) - T)$, when P - principal amount, IR is the closest lower interest rate announced by Bank reflecting the period from time deposit opening to the time deposit partial withdrawal and reflecting the amount of partial withdrawal, T - withdrawal tax, 360 base is applied for EUR, USD and CZK, for GBP 365/366 base is applied. The remaining amount of the time deposit will earn interest based on the interest rate valid on the day the deposit was made, according to the size of the remaining deposit and the original term of deposit.
