

Citi ESG Momentum Core ER Index

ESG DISCLOSURE

1. INTRODUCTION

This environmental, social and governance ("**ESG**") disclosure (the "**Disclosure**") has been prepared by Citigroup Global Markets Limited ("**Citi**") as the administrator of the Citi ESG Momentum Core ER Index (the "**Index**"). It is intended to meet the requirements of the United Kingdom Benchmark Regulation.

The "**United Kingdom Benchmarks Regulation**" is the European Benchmarks Regulation, as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "**Act**") and as amended pursuant to the Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019 (SI 2019 No. 657), and as may be further amended.

The "**European Benchmarks Regulation**" is Regulation EU 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EC and Regulation (EU) No 596/2014.

This Disclosure is also intended to meet the requirements of the European Commission Delegated Regulation (EU) 2020/1817, as it forms part of the domestic law of the United Kingdom by virtue of the Act, and as may be amended.

Any references in this Disclosure herein to EU legislation shall be to such legislation as it forms part of the domestic law of the United Kingdom by virtue of the Act as amended.

You should read this Disclosure in conjunction with the Index Conditions (comprising the Index Conditions (Framework) together with the applicable Calculation Module, Function Module and Selection Module) and other associated documents which explain how the Index works. These are available on the Citi website (linked below).

Summary of ESG Objectives

The Index pursues ESG objectives by tracking the performance of a dynamic strategy which allocates the notional exposure of the Index between its two sub-baskets which contain underlying assets (the "**Underlying Assets**") that themselves pursue ESG objectives. The Underlying Assets comprise two proprietary Citi indices (the "**Underlying Indices**") and an exchange traded fund (the "**ETF**"). The Underlying Assets are the Citi US Large Cap ESG Series 1 Gross Total Return Index and Citi US Tech ESG Series 1 Gross Total Return Index. The ETF is the iShares ESG Aware MSCI EAFE ETF.

The Index does not itself consider the ESG factors below. However, the Underlying Indices use an ESG score provided by ESG Book GmbH ("**ESG Book**") to contribute to the process of selecting and weighting the constituents of the Underlying Indices. The ESG score provided by ESG Book does consider some of the ESG factors below. The ETF also uses ESG factors in the selection process and in the weighting scheme of its constituents. ESG Book is the new name of Arabesque S-Ray GmbH ("**Arabesque**").

Therefore, Citi does not consider any of the ESG factors below to be directly considered by the Index.

Should you wish to further understand how the ESG factors below are considered by the Underlying Indices, please refer to the following for the Citi US Large Cap ESG Series 1 Gross Total Return Index Benchmark Methodology and the Citi US Tech ESG Series 1 Gross Total Return Index Benchmark Methodology:
