

Notice

Publication of Index Levels to Bloomberg

18 October 2016

Each index referred to herein (each, an “**Index**”) and all information and data in respect of such Index (the “**Index Information**”) set out herein are the proprietary material of Citigroup Global Markets Limited (“**CGML**” and the “**Index Administrator**”).

Any level of any Index provided herein is an indicative level, and is not an official level of such Index as determined within the control framework of CGML’s independent Benchmark Administration Team (the “**BAT**”). The indicative level of an Index may be calculated (1) by sales and trading department (“**Sales and Trading**”) personnel or by the BAT, and (2) using either Sales and Trading systems or BAT systems. In each case, such calculations are not subject to the same oversight and governance as the calculation of an official level of an Index, and an indicative level of an Index must be considered unofficial and subject to correction. The indicative level is provided to you at your request for your information purposes only, is being provided as an accommodation and without charge by CGML, and may be discontinued at any time.

No use of any Index or Index Information is permitted unless such use is authorized, whether (1) through buying or otherwise entering into any financial product (each, an “**Index Linked Product**”), the performance of which is linked (in whole or in part) to such Index, from or with (a) the Index Administrator or one of its affiliates; or (b) an entity appropriately licensed by the Index Administrator; or (2) under the terms of a written licence granted by the Index Administrator. To the fullest extent permitted by applicable law and regulation, neither the Index Administrator nor the entity acting as the calculation agent of an Index (each, an “**Index Calculation Agent**”) accepts any liability whatsoever for any use of any Index that is not so authorized.

This communication is provided for information purposes only with respect to each Index, and does not constitute (1) a recommendation, an offer or a solicitation to deal in any financial product, enter into any transaction or adopt any investment strategy; or (2) accounting, financial, investment, legal, regulatory or tax advice. Neither the Index Administrator nor any Index Calculation Agent nor any of their respective directors, officers, employees, representatives, delegates or agents (together with the Index Administrator and each Index Calculation Agent, each a “**Relevant Person**”) makes any express or implied representation or warranty as to (1) the advisability of buying or otherwise entering into any Index Linked Product; (2) the levels of any Index at any particular time on any particular date; (3) the results to be obtained by the issuer of, the counterparty to, or any investor in any Index Linked Product, or any other person or entity, from the use of any Index (or any data included therein) or any Index Information for any purpose; (4) the merchantability or fitness for a particular purpose of any Index; or (5) any other matter. Each Relevant Person hereby expressly disclaims, to the fullest extent permitted by applicable law, all warranties of accuracy, completeness, merchantability or fitness for a particular purpose with respect to any Index and any Index Information. No Relevant Person shall have any liability (direct

or indirect, special, punitive, consequential or otherwise) to any person even if notified of the possibility of damages. Neither the Index Administrator nor any Index Calculation Agent is under any obligation to continue the calculation, publication and dissemination of any Index nor shall any of them have any liability for any error, omission, interruption or delay relating to any Index. The Index Administrator and each Index Calculation Agent shall each act as principal and not as agent or fiduciary of any other person.

During the normal course of its business, any Relevant Person may enter into or promote, offer or sell transactions or investments (structured or otherwise) linked to any Index and/or any of its constituents. In addition, any Relevant Person (1) may have, or may have had, long or short principal positions and/or actively trade, by making markets to its clients, positions in or relating to any Index and/or any of its constituents; or (2) may invest or engage in transactions with other persons, or on behalf of such persons, relating to any of these items. Relevant Persons may also undertake hedging transactions related to the initiation or termination of financial products or transactions, which may adversely affect the market price, the market rate or any other market factor underlying any Index and/or any of its constituents. Relevant Persons may have an investment banking or other commercial relationship with, and access to information from, the issuer of any constituent of any Index. Such activity may or may not have an impact on the level of any Index, but potential investors and counterparties should be aware that a conflict of interest could arise where anyone is acting in more than one capacity, and such conflict may have an impact (either positive or negative) on the level of any Index.

Each Index reflects the performance of notional investment positions in its constituents. There is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. Each Index merely identifies certain hypothetical investment positions, the performance of which will be used for the purpose of calculating the level of such Index.

Past performance is not indicative of future performance. Any numbers or figures presented as past performance in this communication may include performances calculated from back-testing simulations. Any back-testing information provided herein is illustrative only and derived from proprietary models based on certain historic data and assumptions and estimates. Such back-testing information should not be considered indicative of the actual results that might be obtained from an investment or participation in an Index Linked Product. Any scenario analysis is for illustrative purposes only and does not represent the actual performance of the relevant Index nor does it purport to describe all possible performance outcomes for the relevant Index.

Each Index is described in full in the applicable index conditions or other documents describing formally the methodology of such Index made available by the Index Administrator (each, the “**Index Conditions**”), which are available upon request from the Index Administrator. The Index Conditions describe how the relevant Index is determined (including its calculation methodology and its data inputs, and the use of expert judgement) and set out important risk factors. Any decision to invest in an Index Linked Product should be based upon the information contained in the associated prospectus, offering document or other legal document, together with the applicable Index Conditions (including the risk factors).

This communication is not intended for distribution to, or use by, any person in a jurisdiction where such distribution is prohibited by applicable law or regulation. No Index is in any way sponsored, endorsed or promoted by the issuer or sponsor, as applicable, of any of its constituents.

In addition, CGML or its subsidiaries or affiliates (collectively "**Citi**") may submit prices, rates, estimates or values to data sources which publish benchmarks or indices, which may be referenced in products, transactions or an Index. Such submissions may have an impact on the level of the relevant benchmark or index and consequently on the value of such products, transactions or Index. Citi will make such submissions without regard to the interests of any person under a particular product, transaction or Index. Citi has adopted policies and procedures designed to mitigate potential conflicts of interest arising from such submissions and its other business activities.

Any concern or complaint in connection with any Index should be addressed to your usual Citi sales representative.

This communication has been issued by CGML. In the United Kingdom, CGML is authorized by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority (together, the "**UK Regulator**") and has its registered office at Citigroup Centre, Canada Square, London E14 5LB. This communication is directed at persons (1) who have been or can be classified by Citi as eligible counterparties or professional clients in line with the rules of the UK Regulator; (2) who have professional experience in matters relating to investments falling within Article 19(1) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005; and (3) other persons to whom it may otherwise lawfully be communicated. No other person should act on the contents or access the products or transactions discussed in this communication.
